

## Dr. Hayakawa Proclaims Human Conflicts Settled Through Communication

By PARKER GAY

An estimated four to five hundred people heard the talk on "The Task of the Listener" last Wednesday evening in Room 10-250 by the noted author-lecturer, Dr. S. I. Hayakawa. Originally scheduled to be held in Room 1-190, this lecture hall was found to be entirely inadequate, and at the last minute the lecture was switched to Room 10-250, which was soon completely filled.

The affable, young-looking author of *Language in Action*, a book which did much to make popular the study of semantics, gave a one hour talk and discussion of semantic principles and the importance of the proper use of words on our present day civilization. Dr. Hayakawa divides the kinds of meaning which words can convey into four general classifications—informative, systemic, directive, and evaluative. With the tremendous word deluge which confronts the individual today, one must learn to classify statements accurately into their proper place. One way, says Dr. Hayakawa, is to make certain that we talk sense ourselves.

### Far-Reaching Implications

One of the most far-reaching implications of semantics can come about through freeing our minds from the delusions which improper knowledge and use of language have caused. Proper use of language and its effect on accurate communication cannot be over-emphasized. "The only settling of human conflict by means other than communication is by means of force, and," says Dr. Hayakawa, "we have arrived at a state in human history where we can no longer afford to use force."

Dr. Hayakawa stated his points very clearly and thoroughly in his talk, using many simplified, if not oversimplified, examples to enlighten his audience. After the talk, approximately half stayed for a question and answer period.

### Born in Canada

S. I. Hayakawa was born in 1906 in Vancouver, Canada, the son of a successful importer who came to San Francisco earlier from Japan. Although born in Canada, Dr. Hayakawa claims to be an American, having studied at the University of Wisconsin where he received his Ph. D. in 1935. Later, at the Illinois Institute of Technology he taught freshman English, and

S. I. HAYAKAWA

it was here he wrote the first draft of *Language in Action* in 1939 to use in his classes. The book was published in 1941, and since then has awakened a wide popular interest in the new science of semantics. Recently, a more comprehensive volume has been published, *Language in Thought and Action*.

### CORRECTION

The Lecture Series Committee smoker will be held, not October 19, as reported in the October 18 issue of THE TECH, but Wednesday, October 26, in Litchfield Lounge. Professor F. Alexander Magoun will speak, and everyone interested in the committee is invited.

## Champ To Run Open House

Inst. Comm. Okays '51, '52 Councils

Institute Committee elected Norman B. Champ, Jr., '50, Chairman of the 1950 Open House Committee at its meeting Wednesday, October 18. Results of several elections were approved and a motion to drop the Senior Ring Committee was defeated.

Peter Stark was approved as Secretary-Treasurer of the freshman class, with Merrill Ebner and Gilbert Gardner Institute Committee representatives.

The following were elected Sophomore Section Leaders: Kenneth Childs, Daniel Laycan, Milton Dietz, George Friedensohn, Gino Soalamondre, Andrew Wessel, George Bradley, Zane Yost, Richard Lyle, John Brady, Edwin Bykhoff, Julius Kassig, Charles Poppe, Ronald Thompson, Steven Laurens, Arthur Freeman, Nathan Levine, Gustave Rath, Arnold Erickson, James Klupar, Robert Lurie, Henry

## Five Hour Dorm. Comm. Meeting Held on Budget; 'The Tech' Contract Cut to \$1000 for Year

### Commuters Deck Morss Hall Walls For Halloween Ball

Skeletons, Pumpkins And Witches Are Themes Of Fall Dance Tomorrow

On Saturday evening, October 22, the 5:15 club is holding its annual Halloween Ball. It will be held in Walker Memorial's Morss Hall and will be open to everyone in the Institute. Activities are going to begin at 8:00 p.m. and end at midnight in accordance with the "blue laws."

The music will be by Ernie Lawrence and his orchestra, an organization made up of local musicians that have played with some of the nation's top-notch bands. Their slogan is, "Music that speaks for itself."

In the brass section, at first trumpet, the band has Charley Whitemone, whom you have probably heard with the Vaughn Monroe Orchestra. George Olson, a fine drummer and baritone, sings with the band. Ernie Lawrence, the leader of the saxophone section, has played with such famous band leaders as Jess Stacey and Charley Barnet.

Morss Hall will be decorated in true Halloween fashion. The room will be strewn with pumpkins, skeletons, witches, and balloons.

In the 5:15 club room Halloween games will be played throughout the evening. A door prize of a Junior Prom ticket is to be given to the holder of a lucky number.

Refreshments will consist of all the cider and doughnuts you can eat as well as Halloween candies. They will be served continuously throughout the evening.

Tickets are on sale in Building 10 and in the 5:15 Club Room in Walker Memorial. The price is \$2.40 per couple.

### Pandit J. Nehru To Visit Technology

The visit of the Honorable Pandit Jawaharlal Nehru to the Institute today is awaited eagerly by the Hindustan Association and guests invited to the reception and tea for the Indian leader. Unfortunately, because of the large number of Indian students who are members of the Hindustan Students Association of Greater Boston, attendance on the part of others connected with the Institute must be limited to Dr. Julius A. Stratton, Provost, and Mrs. Stratton; Dean Everett M. Baker and Mrs. Baker; Professor Paul M. Chalmers, Adviser to Foreign Students, and Mrs. Chalmers; and Professor B. Alden Thresher, Director of Admissions, and Mrs. Thresher.

Nehru, spiritual and political leader of the Indian masses, is well known for making pointed off-the-cuff remarks at his public appearances.

In a record meeting lasting longer than five hours, the Dormitory Committee last Monday passed the major portion of their budget and approved the purchase of \$1,000 worth of subscriptions to *The Tech* for the coming year.

The climax of the stormy session came very quickly shortly after 10:00 p.m. when Nathaniel Roosin, '50, treasurer of the committee, proposed that the committee spend about half the amount they did formerly to supply the school newspaper to the dormitory residents. Henceforth, dormitory men desiring a copy of the paper will have to ask for it at one of the dormitory desks.

### Junior Class Goes To Hell November 19

"Heaven and Hell" are to be the thought-provoking themes of next month's Junior Prom. Ralph Romano, '51, Chairman of the Purgatory Committee, has announced that the usual Double F's, so prominent and popular among members of the Junior Class, will "Give way to the new 'HH' as another step in the class of '51's plans to revitalize, reorganize, revamp and resuscitate Technology's educational system."

Friday evening, November 18, the formal dance will be held in the "Heaven" motif, with Elliot Lawrence and his band helping to keep things moving. In contrast to the bliss of Friday night, an atmosphere of Hades will prevail at the Saturday shindig, with Brad Kent supplying the noise for this event.

Next week, October 24 and 25, options for the Prom will go on sale in the lobby of Building 10. Only Juniors will be permitted to purchase options on the first two days of sale. After this, sales will be unrestricted.

A radio veteran at the age of four, bandleader Lawrence has been featured on four radio networks and had his own program for two years. Winner of numerous awards at the University of Pennsylvania, Lawrence composed his first concert "Suite for Animals" immediately following graduation.

### Appropriations Cut

Members of the committee, in a drive for economy, cut the appropriation for Student-Faculty Teas in half by eliminating two out of the four originally requested by the social chairman, Donald C. Bishop, '50. Also on the budget is a \$500 appropriation for an unspecified social event that may be held during the IFC weekend. Chairman of the Dormitory Committee, Daniel L. McGuinness, '50, announced that the money might possibly be used as a reserve fund for a dance sponsored by all three living groups, but the plans are still in the talking stage.

It was also decided that the committee would subsidize students' meals at the two bull session dinners to the extent of fifty cents instead of the customary seventy-five.

### Darkroom Plans Defeated

Hardest hit in the expense curtailment was the house committee. The proposal for a darkroom in the New Dormitory was defeated and appropriations for the old darkroom and for magazines in the lounges were tabled until the next meeting. Harold A. Seigel, '51, chairman of the house committee, reported that the magazines had already been ordered but that the subscriptions

(Continued on Page 4)

## Regional N.S.A. to Give Dates As Prizes in Dance Tonight

### WANT HER?

The owner of this face will be given away as a date along with tickets to the Harvard-Dartmouth football game to the man holding the right number on his ticket at the regional N.S.A. dance tonight.

Students from fourteen colleges in the Boston area are planning to attend the NSA Fall Intercollegiate Dance tonight at the Armory opposite the Institute on Massachusetts Avenue. The features of the dance are two door prizes: dates for the Harvard-Dartmouth football game and dinner afterwards. The man winning will escort Gloria Bacae, an Emerson College movie hopeful. The winning girl's date remains a mystery. The entertainment will be headed by Jack Rawleigh, an obvious stage name, a student at the Boston University School of Public Relations who has been in vaudeville for several years. Also on the program will be a male quartet from Boston University, the Quartunes, Michael Marge, comedian from Emerson College, and John Inglis, a Harvard baritone, and a modern dance group from Boston Conservatory of Music will also be on the program.

Tickets will be on sale at the door for \$90 per person. There will be virtually hundreds of unattached girls there, according to the chairman of the dance committee.

## Dance To Climax Field Day Activities

### Entertainment Features Music by Techonians

To climax Technology's fiftieth Field Day, the Dormitory Committee is sponsoring its annual Field Day Dance next Saturday, Oct. 29. Music by the Techonians will get the dance under way at 8:00 p.m. in Morss Hall in Walker Memorial.

Tickets to the Field Day Dance will be on sale between the hours of 11 and 2 in the lobby of Building 10 from Thursday, Oct. 20, until Friday, Oct. 28. Members of the Dormitory Social Committee may also be contacted for tickets. Admission, including tax, is \$2.40 per couple.

For the first few days ticket sales will be open only to members of the classes of '52 and '53, and later opened to everyone.

## THE DORMITORY CONTRACT

It took a five-hour-long Dormitory Committee meeting and some rather bitter debate to settle the matter after a week of heated discussion among the dormitory residents but the Committee has agreed to purchase *The Tech* for distribution among the residents for the next year. One thousand dollars has been budgeted for the rest of the year to buy the newspaper at \$.045 per copy. Dormitory men who want the paper will have to ask at one of the dormitory offices for their copy.

It has been a source of perennial wonder to the paper's Managing Board that the Committee in the past has spent nearly half its budget to supply *The Tech*, albeit at the bargain rate of \$.035 apiece. There are a number of people in the dormitories and elsewhere who would not read the paper even if it were placed in their hands personally by the General Manager every Tuesday and Friday. There is no reason why papers should be bought for these men. Of course, it is perfectly reasonable for the committee to supply papers for those who want them just as they supply other services to other residents.

We were naturally gratified by the number of people who expressed the wish to read the paper, but we were amazed at the extreme ill-will, not merely disinterest but bitterness, borne toward the paper by a small minority. One of the poorest arguments stated by those who wished to do away with the purchase contract was that if the newspaper found itself in straitened finances the staff would be forced to put out a better product. About thirty seconds of thought ought to be sufficient to remind anyone that those who work on *The Tech* are not motivated by financial gain, that the staff puts out the best paper it can under any circumstances. Tight finances have reduced the quality of the pictures printed, and further hardship, rather than raise incentive, would probably force the elimination of the photography staff. Fortunately, this will not happen.

A poor argument on the other side was that the dormitories should buy the paper as a service to the school. There is no reason why the dormitories, or anyone else, should have to subsidize the newspaper. If the paper is so unwanted by the students that it has to be bought for them by the student government, then it might as well cease publication. We recognize that *The Tech* is not a nickel's worth of newspaper; obvious limitations on equipment and personnel make it impossible to compete with such products as *The Harvard Crimson* or the *Yale Daily News*. If, however, we were found not to be useful, we would close operations at once. Until then, Technology's oldest activity will continue to get older.

## RED CROSS OR RED ROSES

The issue at hand, gentlemen, is whether or not we shall continue to decorate our girls with flowers at Technology dances. It was proposed at a recent Institute Committee meeting that corsages be barred from Institute functions in the future by legislative command. As at some other colleges that have such a plan, various charities would receive the proceeds of a token increase in the price of the ticket, and the young ladies would be informed that the pretty posies to which they have become accustomed have gone to serve humanity through, say, the Red Cross.

We take no sides in this matter. Those who advocate the plan have the backing of powerful forces on the Administration and Institute Committee; those who oppose it insist that not even the Almighty can make them surrender their God-given, inalienable right to enhance their women's bosoms with blossoms. We hope you have a fine battle, Tweedledum and Tweedledee.

## Letters to the Editor

Dear Sir:

This is a letter of protest on two points concerning the article in today's *Tech* about the Sophomore Beer Party. First, I agreed to address the occasion on *Formulae Fluids, and Field Day*, not at all on the subject announced in your paper. Second, it seems to me extremely bad taste to make light of what should be a sacred and holy thing. The T.C.A. is currently endeavoring to persuade me to go on giving the Preparation for Marriage lectures in future years. Under no circumstances am I willing to do so if *The Tech* or any appreciable part of the student body, assume the kind of attitude toward the lectures implicit in the column you have published.

In the twenty years in which I have been giving these lectures *The Tech* has always before been dignified and discreet. Consequently, I ask not only for a correction in your next issue, but for an apology as well.

F. Alexander Magoun

*THE TECH* apologizes for any bad taste found in the article on the "Schlitz-Singers-Swing" of last Tuesday. The article was certainly not written in any attempt to make fun of anybody, and the obvious mistake made in the subject of the lecture was the result of misinformation.

In the past, the student body has accepted the lectures by Prof. Magoun with an excellent attitude; we do not consider that this attitude will be changed by less serious discussions of "sex" on other occasions. Certainly a discussion of sex in connection with the VOO DOO Smoker, or any stag party, replete with beer, might be expected on a slightly lower level than at other times.

*THE TECH* certainly hopes that Professor Magoun continues to give his lectures with as much success as in the past. — Ed.

## Sat Nite "Date Bus" Runs To Wellesley

For the benefit of Technology and Harvard students, a special bus is run to Wellesley from Cambridge and back again every Saturday night. The bus leaves from the Graduate House at 12:15 a.m. and arrives at Wellesley at 12:45. It leaves Wellesley for the return trip to Cambridge at 1:15 a.m.

Tickets may be purchased from the T.C.A. office until noon of the preceding Friday; the price is two dollars. One ticket is good for a ride to Wellesley for a couple and back for one person.

## Tech 'Tecture Students Design Own Tombstones

by NELSON MacDONALD

"Uneasy lies the head of an Architecture student" — especially when it is concerned with such an unusual problem as the one assigned to a large portion of the School of Architecture a few weeks ago. The problem was one of a series dealing with the use of materials and in this case the material was stone, and the subject was tombstones.

The material presented was probably the most unusual collection of the humorous, spectacular, and weird ever garnered.

For example, one budding genius, not being content with the tombstone of a single architect, sketched a whole grave yard full of architects' tombstones. Upon the most magnificent stone of all was engraved his own name, while engraved on the smaller and more insignificant stones were names like Frank Lloyd Wright, and Professor Rapson of the Architecture department.

Even philosophy found its way into the picture when one sketch came in with the following verse written across the top:

Stop, wander as you pass by,  
 And view the ground wherein  
 we lie,

As you are, so once were we—  
 As we are now, so you must be.

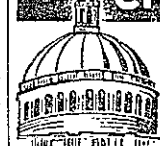

P.S. He lived to be a hundred.

Most of the dates on the stones were also of the more unusual nature.

Another died in 1940, but was ably represented by his ghost who appeared in the right hand corner of the sketch with a satisfactory name card around his neck.

The epic tombstone was the essence of simplicity. At first glance, it told the whole story. It consisted of an arrow—pointing straight down.

Open evenings 'til 11 p.m.

## Reviews & Previews

Due likely to sliderule error, there is some floor space here at the Institute uncluttered by laboratories, classrooms, offices, differential analyzers, and such. These vast and often impressive expanses of emptiness seem to have the tendency of occurring near entrances. Such an awe-inspiring void is to be found at the Massachusetts Avenue entrance.

Here, can be shown the wonders of science, the marvels of engineering and objects d'art. Carrying out this plan, the Institute has often set up exhibits of great science appeal—buttons to push, diagrams to read, flow charts to follow, wheels to turn and even taste tests, but these had to be stopped because of their competitive nature with Walker. And objects d'art.

The scientific shows are apt to be educational, the cultural ones inspiring, for in the past most of these art exhibits have been on a high plane of quality.

This brings to point the current exhibition of stage, prop and costume designs of the late architect Claude Bragdon, which is grossly below standards. The water colors and drawings are definitely unimaginative and certainly do not make a contribution of any consequence to the theater and of less consequence to the Technology student. I'm sure the institute can do much better in their choice of cultural exhibits.

## Theta Chi, S.A.E. Head Grid Slate

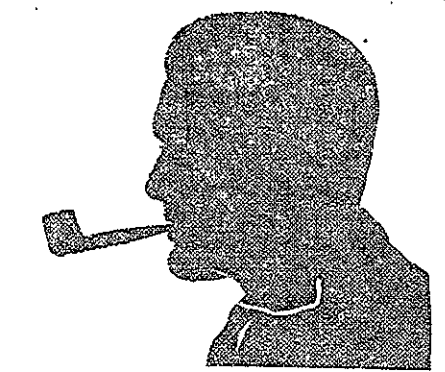

Theta Chi, defending champs, will clash with Sigma Nu in one of 10 exciting games on the intra-mural football schedule this week-end. Other leading contenders in action include S.A.E., playing Phi Gamma Delta, and Grad House A, colliding with the Student House. The complete schedule is as follows:

October 22, 2:00 p.m.  
League IV—Grad House A vs. Student House  
League III—New Dorms A vs. New Dorms C  
October 23, 1:30 p.m.  
League II—Kappa Sigma vs. Barracks B  
Sigma Chi vs. Phi Delta Theta  
Grad House B vs. Pegis Club  
Sigma Alpha Epsilon vs. Phi Gamma Delta  
October 23, 3:00 p.m.  
League IV—New Dorm B vs. Delta Kappa Epsilon  
League I—Phi Kappa vs. Theta Delta Chi  
Chi Phi vs. Walker  
Theta Chi vs. Sigma Nu

## Football Forecast

by Leo Sartori

Following the singular lack of success which marked our efforts to predict the outcome of the baseball season, one might think that we would abandon the prognosticating business in favor of a less dangerous occupation. However, hope springs eternal, as the saying goes, so we shall now bravely attempt the task of forecasting the results of this week-end's major football games. Anyone losing money by betting on these predictions deserves no sympathy. Here goes:

**HARVARD-DARTMOUTH:** Our neighbors from up the river are getting closer to their own class, but are still over their heads. Dartmouth by two touchdowns.

**B. U.-N. Y. U.:** Hardly a contest. Harry Agganis & Co. should be able to name their own score. B. U. by about 30 points.

**B. C.-GEORGETOWN:** This one should be close. We'll pick the Eagles.

**ARMY-COLUMBIA:** Another case of "name your own score." Lou Little's sophs still have a lot to learn. Army by five touchdowns.

**NAVY-PENN:** Good chance for an upset here. Penn is favored, but we'll go out on a limb and pick Navy in a squeaker.

**PRINCETON-CORNELL:** The Big Red rolls on. Cornell by three touchdowns.

**MINNESOTA-MICHIGAN:** Two Big 10 powerhouses fight it out for the Little Brown Jug. Michigan should be up for this one after losing two in a row, but we'll cast one timid vote for Minnesota.

**CALIFORNIA-WASHINGTON:** Big game on the West Coast. We'll string along with the Bears.

**RICE-TEXAS:** Down in the Southwest anything can happen and usually does. We'll take Texas in this one.

**ILLINOIS-PURDUE:** Two of the Big 10's weaker outfits get together. Purdue is our choice.

**YALE-HOLY CROSS:** Herman Hickman's boys got their lumps from Cornell last week but should still have enough to take the Crusaders by at least 2 t.d.s.

## Tufts Soccermen Edge Tech Frosh With Late Score

Tech's freshman Soccer team lost a close game last Wednesday to the Tufts College Frosh, 1-0. The game was scoreless until 7 minutes and 10 seconds of the third period when Conojo of Tufts broke through to score the only goal of the game.

Led by Co-Captains Bachman and Medal the Engineers played a good game in spite of their defeat. Four or five good shots at goal all were narrowly missed.

The starting lineups:—

<b>Tufts</b>	<b>M.I.T.</b>
Martin, G	Tarry, G
Thompson, RFB	Bachman, RFB
Buckley, LFB	De La Vega, LFB
Thaxter, RHB	Ratins, RHB

## Booters Nip Tufts, 4-3, On Second-Half Rally; Goalie Sylveston Stars

Photo by North

Pete Sylveston, Tech goalie, has just stopped a Tufts shot and is about to kick the ball out of danger. Captain Dimitriou is administering a block to an unidentified Tufts player.

Overcoming a two point half time deficit, Tech's soccer team defeated Tufts in its home opener on Briggs Field Wednesday afternoon. The final score of this closely-fought contest was Technology 4, Tufts 3, giving the Engineers their first victory after three losses.

### Tufts Takes Lead

The game was stalemated at a one to one tie until about five minutes before the half, when Tufts put two goals in rapid succession through an uninspired Tech defense.

However, the Beaver eleven came back with new life after the half. Falcao, who scored the first goal, put in another one on a pass from Akcaharman. A long pass from

Blanco then gave Akcaharman his chance, and he scored the tying goal.

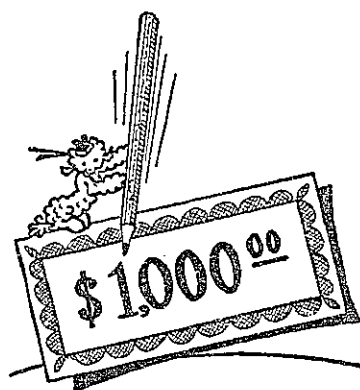

### Moore Scores Clincher

Just as the whistle blew ending the third quarter, Mel Moore burst out of a terrific tangle at the Tufts' goal and booted in the winning point. The Jumbos threatened during the last few moments but were kept from scoring.

### Starting Lineups

Tech	Position	Tufts
Sylveston	G	Carter
Dimitriou	RF	Hehold
Thornton	LF	Dybrec
Skillman	IR	Goylick
Haegler	CH	O'Neil
Barcinski	LH	Breyton

Akcaharman	IL	Norris
Falcao	OL	Moulton

## THE ROGERS PEET Inter-School-and-College ADVERTISING CONTEST

**\$1,000 in prizes**

—in Cash and in Merchandise Certificates

All you have to do is write a little ad for Rogers Peet—one in our well-known cartoon style—one that will appeal to students like yourself.

On the Bulletin Board are not only full details about the Contest but also some of the winning ads of other years. They show how easy it is!

Start now! Win a worth-while prize and also a little fame for yourself. Contest closes midnight Sunday, October 30, 1949.

P.S. As a further honor, it is also our practice to publish in the New York newspapers, and also in the New Yorker Magazine, a group of the best advertisements submitted.

# Walker Committee Publicity Contest To Begin Friday

**Talks On Advertising  
Are To Be Given By  
Professional Advertiser**

Walker Memorial Committee's Second Annual Publicity Contest starts this Friday, October 19. A plaque and individual award will be given on the basis of attractiveness, originality, planning, interest, and purchasing appeal of Technology publicity campaigns. The idea is to "promote a higher and more efficient type of student publicity."

Questionnaires are available at the Walker Memorial Committee office for those wishing to participate, and should be submitted before opening campaigns. Groups can enter as many times as they publicize.

The services of Mr. Horace Curtis of Batten, Barton, Durstine, and Osborn Advertising Agency have been acquired by the Walker Memorial Committee, and he is to act in an advisory capacity to the Stu-

dent Publicity Chairman. Mr. Curtis will hold a series of semi-monthly informal talks, the first on Wednesday, October 26, from 5:00 to 6:00 p.m. in the Moore Room, 6-321, opposite Eastman Library.

## Inst. Comm.

(Continued from Page 1)

Hohorst, Alexander Uring, Francis Hyson, James Humphries, Robert Courillard, John Pricer, James Davidson, Charles Kandel, William O'Neill, Sanford Kaplan, James Grace, David Weber.

# Tech Model R.R. To Take Part In Model Convention

The Tech Model R.R. Club will operate its layout formally for the first time this weekend when it will perform for visitors to the convention of the Northeastern Region of the National Model Railroad Association, which is being held at the Hotel Essex in Boston. The club, which has spent all of its three-year existence constructing its layout in Room 20-E-216, will be open this weekend only to members of the convention. The first public show will be given during Open House this Spring.

## Dorm Comm.

(Continued from Page 1)

could be stopped if necessary.

All the appropriations requested by the athletic chairman, Alan H. Vort, '50, were approved by the committee. While he did not at that time request funds for the bowling team, such an appropriation was proposed by Louis G. Dion, '51, in a parliamentary attempt to block

funds that might be used to purchase The Tech. His motion was defeated.

## Petitions Demand Newspaper

Sanford Sussman, '51, chairman of the actions committee, reported on a number of petitions signed by dormitory residents during the preceding week. The one with the most signatures requested that the Dormitory Committee continue to distribute free copies of the school

newspapers. Objection to the wording of this petition was raised by several members of the committee on the grounds that the papers were not free but paid for by the committee. There were 509 names on the petition, but they were not checked for validity.

A general contingency fund of \$750 was set up in addition to contingency funds allowed to each of the operating committees.

# LUCKIES PAY MORE *to give you a finer cigarette!*

**Yes, at tobacco auctions Lucky Strike  
pays millions of dollars more than  
official parity prices for fine tobacco!**

There's no finer cigarette in the world today than Lucky Strike! To bring you this finer cigarette, the makers of Lucky Strike go after fine, light, naturally mild tobacco—and pay millions of dollars more than official parity prices to get it! So buy a carton of Luckies today. See for yourself how much finer and smoother Luckies really are—how much more real deep-down smoking enjoyment they give you. Yes, smoke a Lucky! It's a finer, milder, more enjoyable cigarette!

RAYMOND W. CRUTCHFIELD of Reidsville, N. C., veteran tobacco warehouseman, says: "Year after year, I've seen the makers of Luckies buy fine, ripe leaf that makes one great smoke!" "Crutch" has smoked Luckies for 20 years. Here's more evidence that Luckies are a finer cigarette!
